

Voltage and Continuity Tester

 **LED indication of AC/DC Voltage**
To 480V in seven ranges

Features:

- Bright indicating LEDs at 12, 24, 120, 208, 240, 277 and 480V
- Audible and Visible continuity test up to 200k Ω
- Single pole live voltage detector
- Voltage function operates without batteries
- Automatic AC/DC indication plus DC polarity
- Meets IEC 1010, CAT III
- Complete with 39" (1m) cable with test lead and two 1.5V AAA batteries

Specifications

| | |
|-----------------------------|-----------------------------|
| Test Current | <3.5mA |
| Frequency range | DC to 65Hz |
| Single Pole Frequency range | 45 to 65Hz |
| Power | two 1.5V AAA batteries |
| Dimensions | 8.3x1.6x0.9" (1210x40x22mm) |
| Weight | 4.6oz (130g) |
